CAREER OBJECTIVE

Aspiring Software Engineer with strong knowledge of Python, SQL, C/C++, and software development fundamentals. Passionate about developing scalable software solutions with excellent problem-solving and analytical skills. Hands-on experience in Python, Machine Learning, IoT, and Embedded Systems. Quick learner with strong communication, teamwork, and troubleshooting abilities, seeking to contribute as a Software Engineer Trainee while continuously learning enterprise technologies.

EDUCATION

Bachelor of Engineering (Information Technology) 2024–Pursuing

Chandigarh University

Senior Secondary Schooling (12th) 2023

St. Joseph's Higher Secondary School, Baramulla

Secondary Schooling (10th) 2021

St. Joseph's Higher Secondary School, Baramulla

TECHNICAL SKILLS

Python	SQL	Linux (Basic)
C	C++	Java
HTML5/CSS3	JavaScript	Git
GitHub	VS Code	DBMS
OOP Concepts	Data Structures	Problem Solving

PROJECTS

Bangalore Housing Price Prediction

Developed a Python-based regression model to predict Bangalore housing prices using data preprocessing, feature engineering, model training, and evaluation.

Tools: Python, Pandas, NumPy, Scikit-learn, Matplotlib

Wearable Health Monitoring System

Designed an IoT-based wearable device using ESP32 for monitoring heart rate and body temperature with real-time wireless communication.

Tools: ESP32, Arduino IDE, Embedded C

CERTIFICATES

- Android Mobile Application Development – NPTEL
- Java Programming Workshop (Core Java & OOP)
- Web Technologies Workshop (HTML, CSS, JavaScript)
- Explore AI: Designing Your Dream Destination with Microsoft Copilot

CO-CURRICULAR ACTIVITIES

- Developed Python and IoT-based academic projects.
- Participated in technical workshops and coding activities.
- Collaborated with peers on software and embedded systems projects.
- Continuously learning Python, SQL, Linux, and software engineering practices.

HOBBIES

- Traveling and exploring new places and cultures.
- Playing indoor and outdoor games.
- Learning new technologies and programming concepts.
- Solving coding and logical reasoning problems.
